## The American Academy of Psychotherapists: Our Mission

The American Academy of Psychotherapists was founded in 1954 by a group of pioneering psychotherapists who sought a meeting ground for practitioners from different disciplines where live experience and demonstrations of psychotherapy would help to create open discourse. Carl Rogers, Albert Ellis, and Fritz Perls were all members of AAP, as were, through the years, other well-known members of our profession such as Virginia Satir, Carl Whitaker, Henry Guze, Rollo May, Irving and Miriam Polster, Bob and Mary Goulding, Jim Bugental, Sheldon Kopp, Dick Felder, Tom Malone, and John Warkentin.

Since 1895, when Freud first realized that the analyst's emotional process played a role in analysis, our profession has needed to find ways to focus on the person of the psychotherapist; that is the mission of the Academy. Our aims are:

- To provide a meeting ground for trained and experienced psychotherapists of differing orientations.
- To facilitate cross-discipline thinking, planning and research in psychotherapy.
- To encourage high standards of training experience and ethical practice in psychotherapy.

### Conference Goals

At the AAP Southern Region Spring 2009 theme-focused workshops and process groups in which we will have an opportunity to:

- Examine our hopes, concerns and dilemmas.
- Improve our skills in working as clinicians and supervisors.
- Consider ethical issues facing us.
- Focus on who we are as therapists and the effect we have on the therapeutic process.

### Developmental Tracks

We are offering three tracks for professional development, plus a training session. **Two** tracks will require a full day's commitment, while others will permit changing tracks:
